Evergreens

For September, October and November Shipments
PRICES BASED ON CARLOAD LOT ORDERS

Our Climate and Soil With Our Growing Methods
Produce America's Finest Evergreens

Our evergreens have been properly transplanted several times with ample space between each plant to allow the natural and correct development.

Our evergreens are broad at the base and well proportioned.

Our evergreens have been properly sheared to produce attractive compact plants.

Our soil is ideal for evergreens and insures a good, firm natural ball of earth.

All evergreens will be balled and burlapped, that is, carefully dug with the proper amount of soil about the roots and wrapped in burlap which is securely sewed.

These prices include this service.

We grade liberally.
